GERMAN SOCIALIST LEADER URGES SIGNING OF TREATY REGARDLESS OF MODIFICATION

Hugo Haase Advocates Mitigation of Terms, But Declares Refusal To Sign Is Less Advantageous Than Acceptance Of Harshest Of Terms

BERLIN, June 6.—Hugo Haase, leader of the Independent Socialists, declared in an interview today that Germany should sign the peace treaty regardless of whether she can obtain any modification.

"Personally, I believe the German delegates should do their utmost to secure modifications but they should sign in any event," Haase said. "It is more disadvantageous for Germany not to sign than to accept the treaty even in its present harsh form."

Haase said he saw small chance of the Independent Socialists taking over the government unless the workers generally demand it.

"If all join in demanding a real Socialist government then I believe the Socialist factions will undertake to form a coalition government," he said, "but such a movement would not be attempted by force."

Haase admitted he had heard rumors of a plan to attempt to overthrow the government June 7, but said that investigation had proven the rumors false.

Reports were in circulation that several members of the cabinet are prepared to resign if the peace treaty is not altered.

COLLIERIES TO CLOSE DURING THE COMMUNITY REQUIEM MASS

WILKESBARRE, PA., June 6.—A heavy downpour of rain today adds to the gloom which spreads over this city as the result of the Baltimore tunnel disaster in which more than eighty men lost their lives.

In the east end of the city today there are eighty houses on which are hanging the solemn black crepe signifying death within. Plans are being formulated for a community funeral for the men who lost their lives in one of the worst mining disasters this community has ever known.

Tomorrow morning at 10:30 o'clock a community requiem mass will be celebrated in the Holy Savior church. It is said that thousands will gather to the church to pay their respects to the men who sacrificed lives in the hazardous employment—mining.

Miners in the vicinity of the Baltimore Tunnel quit work when they learned of the explosion. It is believed that practically every colliery in this section of the anthracite region will close down tomorrow.

Officials of the Hudson Coal Company visited the homes of every man in the tunnel at the time of the accident and checked up their list of fatalities. The result announced today follows:

Identified dead—81.
Unidentified dead—1.
Missing—3.
Injured—in hospital, 59
Injured—taken home, 12.
Total—147.

Burton Seward, chief of the department of mines of Pennsylvania, is at the tunnel today conducting a thoro investigation into the cause of the explosion. Before leaving for the scene of the disaster, Chief Seward said that while there is no law covering the transporting of explosives from the magazine to the working place, he is going to take the matter into his own hands and will direct the mine inspectors of this state to prohibit this practice in the future.

MRS. JACOR WERNER BADLY INJURED IN AUTO ACCIDENT

Mrs. Jacob Werner, Orange-st, was accidentally struck by a car driven by Miss Caroline Standen, Walnut-st, Wednesday afternoon near the W. & L. E. depot. Mrs. Werner was standing on Orange-st near Sixth-st talking to Mrs. Emmett Fry when the accident occured.

Miss Standen was driving out Sixth-st and started to cross the tracks when her companion shouted that a train was coming. She attempted to turn eastward on Orange-st along the north side of the track but was unable to right her car after the quick turn and veered across the north curb near which Mrs. Werner was standing. The car struck Mrs. Werner dragging her a number of feet over the brick pavement. The machine again headed for the track and the front wheels were suspended over the high curb along the tracks. Miss Eloise Martter who was in the car with Miss Standen leaped from the machine severely wrenching her ankle.

Mrs. Werner was carried to her home by those who witnessed the mishap and Dr. L. C. McCurdy and Dr. E. M. Wright were summoned to attend the injured lady.

She was removed to the City hospital in Hanlon's ambulance.

In an examination it was found she had sustained a fracture of the right leg below the knee and was badly scratched and bruised. Her right arm was badly injured at the elbow. She was resting fairly comfortably at the hospital Friday but it is feared that her injuries may be of a permanent nature.

The accident was unavoidable. A baggage truck was standing along the north side of the tracks. It is understood that Miss Standen, who is somewhat inexperienced in driving a car, did not see Mrs. Werner in time to stop. The paving along the south side of the tracks was recently completed and auto drivers travelling south on Sixth-st and turning eastward on Orange should cross the tracks and turn on the south side. Complaint has also been made the baggage trucks are left standing along the tracks too long before the arrival of trains.

GEO. S. CATON WILL MAKE THE RACE FOR MAYOR

Friends Predict He Will Come Out Victorious Both At The August Primaries And November Election—to Announce His Platform Later

Fresh interest was injected into the mayoralty campaign Friday by the announcement that Geo. S. Caton, well known real estate agent, has decided to make the race for the Democratic nomination for mayor. This makes a total of five candidates who have announced themselves as candidates for this office, the other two Democrats being William McCoy and J. F. Albertson and the two Republican candidates being E. W. Heinke and R. M. Temple.

Mr. Caton's supporters feel confident that he will land the nomination in August and will be triumphant at the election in November. He has been a resident of the city for the past 35 years and is recognized as a man of progressive ideas yet conservative business judgment. He has kept clear of factional politics and goes into the race unfettered by any entangling alliances.

He served on the city council a number of years ago at the time the Main-st paving was being acted upon. At that time a plan was devolved to eliminate partisan politics from the council so far as possible. Three Democrats were elected without opposition and at the next election three Republicans ran without opposition. During the year of the big flood in 1913, Mr. Caton filled out the unexpired term of W. S. Hutchison as service director for one year. With these two exceptions he has never held any political office, his attention being devoted to private business enterprises during the greater part of his career. He bears the reputation of being a "live wire" and would undoubtedly give the city a progressive administration during the reconstruction period. He will probably announce his platform within the next few days, after he has filed his petition with the county board of elections.

RETURNS TO COSHOCTON

EXPECT TO RAISE FUND OF $5,000 IN COSHOCTON DURING THE COMING WEEK

Purpose Is To Broaden The Scope Of The Movement And Get More Boys To Join—Costs But One Dollar To Become Associate Member Of The Organization

Next week is Boy Scout Week in Coshocton, as well as thruout the nation. The stage is all set for the opening of the membership campaign in Coshocton next Monday morning.

You want to be an associate member of the Boy Scouts, don't you? Sure you do. You've been observing the little band of Scouts here in Coshocton and it's dollars to doughnuts that you're ready to put your stamp of approval on the Boy Scout movement. It's a good thing and you know it, so what's the use of any extended propaganda on the subject?

The Coshocton organization wants 1000 associate members. The cost of becoming an associate member is one dollar. But if you feel a little liberally inclined toward the Scouts you can give any amount you care to up to $25—that's positively the maximum limit, for individuals, corporations and business houses are limited to $50.

Now you've got the whole story in a nutshell. The drive will be over in a few days. Be ready, when the solicitor calls on you, to join the Scouts by making as substantial a contribution as your means will permit.

Get this point clearly: the money to be raised in Coshocton next week is not to finance the present limited membership of the local Boy Scouts but to broaden the scope of the work and to increase the number of active members both locally and nationally. There are many boys who should belong to the Boy Scouts who don't belong. Perhaps you have a boy who is eligible to membership. You want him to get the right start in life. Or, perhaps, you know of some other boy in whom you are personally interested. You'd like to see him join the organization, for you know its training will tend to prepare him for useful citizenship in later years.

The purpose is to not only secure 1000 associate members in Coshocton-co but to raise a fund of $5000, the first $1000 of which is to go to the national organization. It is hoped that sufficient resources will be made available for field work as a result of this membership campaign that one million boys will be enrolled before February 20, 1920, when the tenth anniversary of the Boy Scouts of America will be celebrated.

Three weeks ago C. R. Frederickson, president of the American Art Works, received a telegram from F. B. Pearson, state director of the Boy Scout movement, appointing him county chairman of a committee of citizens to make arrangements for Boy Scout week.

There's a whole lot that could be said about the Boy Scouts and what they have been doing. Here's the oath they take:

"On my honor I will do my best, first, to do my duty to God and my country, and to obey the Scout law; second, to help other people at all times; third, to keep myself physically strong, mentally awake, and morally straight." That's a pretty decent obligation to live up to, isn't it? The boys are doing it to the best of their ability and it's bound to help make good men of them.

The success of the local organization is in a large measure due to W. F. Tankersley. Long before he came to Coshocton he became interested in Boy Scout work. He devotes all the time he can to work among the boys and they have learned to have faith in his leadership. The boys stick to him because they know he is a true friend. When he calls upon them to do anything, they respond cheerfully for they realize that he wouldn't ask them to do anything that isn't right. He possesses the rare faculty of getting close to them and winning their confidence.

Everybody recalls their work in Coshocton during the Liberty loan drives. They were a powerful factor in helping Uncle Sam to raise the necessary finances to win the war. They proved themselves useful in guarding aeroplanes which visited Coshocton during the past year. They were always on the job, ever ready to do a turn in behalf of the government.

But, best of all, they are learning the value of good clean living. The value of "keeping straight" is being impressed upon them and they are getting the right kind of physical training. No movement ever started in America is going to have a more powerful effect upon the future manhood of this country than the Boy Scout movement. It's an honor and a credit to be affiliated with such an or-

FINISH FIGHT IS ON BETWEEN OPERATORS AND WESTERN UNION

WASHINGTON, June 6.—President S. J. Konenkamp, of the Commercial Telegraphers Union of America, today declared Postmaster General Burleson's order restoring control of the wire companies to their owners means a "finish fight" between the telegraphers and the Western Union thruout the country.

"Government control," Konenkamp said, "was made necessary by the Western Union refusing to reinstate discharged employes and abide by recommendations of impartial authorities. Postmaster General Burleson, by his action in returning the wires shows himself a quitter. He has acted without solving the labor problem which made necessary the original seizure of the wires by the government. We now find ourselves returning to the status quo ante, and forced to fight it out."

Immediately upon notification that Burleson had ordered control of the wires returned late yesterday, Konenkamp authorized a strike of Western Union Telegraphers thruout the southeast states.

LLOYD GEORGE DENIES CHARGE OF NORTHCLIFFE

LONDON, June 6.—In an effort to allay perturbation of the parliament and press regarding reports he is "wobbling" over concessions to Germany, Premier Lloyd George has taken the unusual step of posting a flat denial in the lobby of the house of commons.

The Northcliffe press is leading a bitter attack on the premier.

"Since pusillanimity is the only sentiment to which he is obedient," said The Mail, "the premier is weakening and wobbling in the face of the foe."

WINNIPEG STRIKE NEAR SETTLEMENT

WINNIPEG, June 6.—The tentative plan for settlement, "with a view to both sides," prepared by the railroad brotherhood mediation board, was presented for review by all factions in dispute today.

It was stated on good authority.

The iron workers' dispute, which precipitated the general walkout has been settled, it was stated, and is only awaiting signature of the metal workers' leaders and the iron masters.

Other clauses in the general agreement, it was reported include agreement to take back without discrimination, all strikers and signing of a separate pact agreeing to the collective bargaining principle.

In return for these concessions, it was said the strikers committee will call off the sympathetic strike.

If the findings of the commission are upheld, it was stated they may form a basis for the calling off of all sympathetic strikes in various Canadian cities.

Bread and milk stations have been opened by municipal authorities to combat action by the strikers committee in calling out all milk wagon drivers, bakers and other workers.

Mayor Gray and leaders of the citizens committee of 1,000, said they had enlisted the aid of returned soldiers to fight the strikers, by driving wagons and operating the stations.

ATLANTA WIRE STRIKE GROWS

ATLANTA, GA., June 6 — With strikers claiming steady increases to their ranks, Atlanta's telephone and telegraph strike continued today.

Mayor Key, unsuccessful in an effort to bring the striking wire workers and representatives of the federal wire administration together was considering cabling President Wilson at Paris to take the situation out of Postmaster General Burleson's hands.

Possibility of the strike spreading to other organizations was quieted for the time being at least last night when at a meeting of labor organizations conservative leaders forestalled any attempt at sympathetic strikes.

Latest claims by strike leaders place the number on strike above 1-10 including 525 telegraph operators who quit work yesterday. This number Western Union and telephone officials say, is considerably exaggerated.

A number of strike breakers will arrive here today, according to a Western Union official.

WASHINGTON, June 6.—President S. J. Konenkamp, of the Commercial Telegraphers Union of America, today declared that unless the Atlanta situation is settled very quickly "the strike there will involve the entire United States and Canada."

"Telegraphers and electrical workers in every section of the country are demanding that I sanction the strike they have voted and it will be impossible to keep them at work much longer. I will announce the date of the general strike within 72 hours," Konenkamp said today.

Garner, who arrived here today on the French liner Chicago, said he discovered a tribe of apes in the Congo so near human the natives could understand their language.

"Waahooa" literally translated means "where are you?" according to Garner. It is generally answered by "ahooahoo!" which means "here I am."

Garner brought back a stuffed body of one of the man apes. It was six feet tall and weighed 200 pounds.

SLEUTHS TRAIL BOMBERS OUT OF THE METROPOLIS

NEW YORK, June 5.—New York's corps of experienced bomb-thrower hunters was out of the city today in connection with the search for anarchists who caused ten explosions in eight cities Monday night and Tuesday morning.

Inspector Faurot and Deputy Commissioner Lahey were reported to have gone to Pittsburgh to interrogate John Johnson, alleged I. W. W. leader held there, who was said to have given valuable information.

Others went to Patterson, N. J., and to Washington to co-operate with the police and secret service agents at work on the bomb mystery in those cities. The mayor of Paterson has issued a warning to all anarchists and Bolsheviki, intimating that they will receive rough treatment if they invade that city.

William J. Flynn, famous detective who is in general charge of the bomb plot probe may come to New York tomorrow and open headquarters here, it was stated by police. This move, however, will largely depend upon whether the trail leads in this direction.

WHERE SELF-DETERMINATION STOPS.

The man who invented the principle of self-determination set on foot something which, uninterrupted, would reduce civilization to a welter of contending tribes. There is no logical point at which it can be proved that self-determination should stop. Theoretically the five hundred inhabitants of Moresnet, whom Clemenceau admits the treaty hands over to Belgium without their consent, have just as good a right to choose their nationality as have the inhabitants of the rest of Belgium. So, too, would the solid local minorities in any of the states newly erected out of territory and peoples once belonging to the Austrian, Russian, or German empires.

The problem is not academic. Already, according to a Paris dispatch, the Croats have begged President Wilson to liberate them from the "Serbian yoke," asserting that the Jugo-Slavic state was "conquered and organized by means of violence, corruption, trickery, and falsehood." The Croats happen to predominate in the northern Adriatic hinterland which Italy has ambitions to control. A separatist movement might conceivably be artificially stimulated by Italy. But this only adds to the complexity of the problem. There is almost no way of telling whether the boundaries of any of the new nations serve most the political desires of the great powers or the racial aspirations of their inhabitants. The gerrymander is a political weapon in Europe as well as in America. As soon as the censorship is completely lifted we shall begin to hear of racial conflicts and boundary disputes all thru eastern and southeastern Europe, yet so intermingled are races, languages, and religions that it will probably be impossible to settle any one of them, by geographical rule of thumb, with exact justice.

At some point or another the separatist movement must indeed be arbitrarily stopped. But this will not bring tranquillity to Europe if the new nations attempt to grow or prosper at the expense of their neighbors. "Self-determination" which has such results is not progress but reaction. The only way out, for southeastern Europe, at least, is thru economic and political co-operation. And here, again, is a demonstration of the necessity of a league of nations. There must exist a power which will put an end to Balkanism by making these petty struggles for empire futile and unprofitable and which, while preserving the meat of national culture and legitimate national pride, will get rid of the shell of warlike rivalry.

THE KNOCKING WIFE.

A wife's not worth the sock she's knitting she lacks all dignity and charm, who goes around the town admitting her husband is a false alarm. But yesterday I heard a lady complaining of her wedded state; she sat beneath an elm tree shady and railed and grumbled at her fate. She said, "Alas, when I was married I left my mascot in the lurch; I picked a lemon when I carried my veil and bridal path to church. I cuss my luck in Greek and Latin. I might have had a better man, who would have bought me silk and satin, equipped me with a fine sedan. But I was young and Fate was yellow, I'd only lived thru eighteen Junes; and so I gathered in a fellow who barely earns enough for prunes." She grumbles as she does her hemmin'; she grouches as she kicks the cat; it was the husband drew the lemon—her line of talk is proof of that. The wife who's worth the rags she's wearing won't call her hub an also-ran; tho he is punk she still is swearing she harnessed the finest man. He may be trifling as a poet, as worthless as a can of soup; but she won't let the neighbors know it, won't let the news leak from her coop. She may pull out his whiskers hoary, and press her features on his head; but ere she'd tell her friends the story, she'd see herself among the dead.

THE PENDULUM SWINGS.

Forty-eighth years ago Germans in all parts of the United States were holding celebrations and parades following the formation of the new German empire.

Five weeks past and for weeks to come returning American soldiers will parade and receive welcomes from their home folks because they went abroad and punctured that half-century old German empire.

The history of life is symbolized in these incidents. The pendulum swings to the right and then to the left. We are here today and gone tomorrow. A little brief power and we are retured to the scrap heap. Now we receive the plaudits of the multitude; tomorrow we are forgotten.

Great political parties are born and die. For a brief time their achievements ring thruout the land and the populace cheers madly. It would seem the world could not revolve without them. And then they pass into oblivion, perhaps to return in another century with a new name.

Great civic, social and religious movements have their rise and their fall. Fifty years ago many of the states in this country voted dry. A great temperance wave swept the country. Then it passed and the wet interests again came into power. Which grew until it became distasteful and again the slate is wiped. What the future holds no one can tell.

Great church movements in past ages have reached to dizzy heights and not only controlled the world but were responsible for bloody wars. Then came periods of sin and sensuousness.

The pendulum had swung. What is the answer? We do not know. We do know the facts.

Mayhap the secret lies in the truth that power breeds contempt for law, a feeling of greatness which leads to autocracy, a sense of security which begets to injustice.

For the same history which teaches us that the pendulum swings this way and then that way tells us that great combinations in power have shown little consideration for the masses in their dominions.

New York Day-By-Day

By O. O. McINTYRE

NEW YORK, June 6—Thots while trying to write this article: "Twenty minutes and not a thot. Funny about that old codger in Brooklyn kidnapping a young widow in her silken kimona. Nine bobbed girls in the village going to start a magazine. Speaking of magazines my last manuscript hasn't been returned. Hope the woman across the court won't try to sing today. Funny! She just started.

Whatever became of Gaby Deslys? All my friends going to the country. Pretty tough to be poor. Will Rogers is taking his whole family to California. Going to stay in pictures for good. Soft life. Wonder how I'd film? I was a fool to pay the whole dinner check. Listen at her screech. I hope she strains a valve or something.

Ought to have a good time playing tennis tomorrow at Forest Hills. Wish I could play a set with Fay Bainter. Getting old but I got young ideas. Ray Long going to England next month. Hope he finds a writer who won't have his characters meet someone at Charing Cross.

Can't believe that story of Arthur Roche's about the educated frog. Still they educated fleas. See the new luxury law tax is applicable to brass knuckles. Also aromatic cachous. Me, almost forget, and pomades too.

See Broadway has a new after theatre place. Everything in darkness. Black velvet hangings. Only thin pale light of the moon. Waiters have to carry electric searchlights. Still New York's most popular tea room is almost pitch dark.

Hasn't been a classy murder in the New York papers for weeks. Hear a woman high in society is spilling some inside society chatter in one of the afternoon papers. There she hit High C and something busted. Think I'll eat early and go to a burlesque show. Haven't been to one since last summer.

The House of Street and Smith is planning to turn one of their widely read fiction magazines into one of the large and flat, glossed paper illustrated magazines. Park Row whispers that it is to go into competition with a magazine that leapt into sudden popularity by dealing with interesting personalities.

New writers are to be given a chance along with the highly paid and established scriveners. The new magazine is to make its bow in the late summer and Lee Brown, formerly of the New York Times, is to become the editorial director. He has just returned from France and is writing a book dealing with the Yankee in England.

There is not a more interesting publishing house in America than Street and Smith. Every writer of prominence got his start there. The majority of their publications depend upon their circulation sales for revenue and the prices are not so high to writers—but they pay immediately upon acceptance. The magazines paying higher prices and looking for new blood almost always turn to the Street and Smith writers. A writer often takes his story to the publishing offices, waits outside while the editor reads it—and if it is accepted he can stop at the cashier's window and get his money on the way out.

Paul Nicholson is in a play near a theatre where Ed Wynne is holding forth. The other day both were having matinees. Nicholson got a few minutes away and walked over to Wynne's show, got in the stage door and on the stage where Wynne was playing. "Hello Ed! Where are you going to spend the summer?" he asked his amazed brother actor and walked off. Shortly after that Nicholson was on the stage when Wynne came across the street and out in front of the footlights saying: "I think I'll spend it at Great Neck. Where are you going to spend yours. "It fussed Nicholson so much that he kissed the wrong chorus girl. Those actor folks are such dare devil cut ups.

INDICTMENTS ARE RETURNED

COLUMBUS, O., June 6. — Two secret indictments—one for soliciting a bribe and the other for offering a bribe—was the result of grand jury investigation of alleged bribery charges growing out of the non-medical bill in the Ohio legislature, in its report made today.

No names were given out in connection with the return of the indictments, both of which were against the same person.

Final testimony was offered this morning by Senator Howell Wright, and W. B. Gongwher, chairman of the Democratic committee, both of Cleveland.

COLUMBUS—In the opening round of play in the state golf tournament here this afternoon, Templeton Briggs made the 18 holes of the Scioto club course in 75.

GOITRE

Removed for All These Dayton, Ohio, People by External Treatment.

The article was copied from the Dayton Daily News: "All these Dayton people have had goitre removed with Sorboi-Quadruple. Any of them will gladly tell you their experience: Mrs. Louise Will, 228 Gettysburg-Av.; Mrs. C. A. Barnett, 117 Clay-St.; Mrs. Hattie Marshall, 1250 Xenia-Av.; Miss Hulda Bohse, East Hess-St.; Mrs. G. A. Harned, 218 Gettysburg-Av.; Mrs. Hester Happle, 829 Steele-Av.; Mrs. Alice Hambreth.

Sorboi-Quadruple comes in small bottles containing enough for most cases. It will not stain or irritate the skin. It dissolves the goitre, the impurities passing out thru the system. Requires ten minutes daily."

If you are interested it would pay you to go to Dayton and see some of these people. Get further information at Page & Lorenz Drug store and drug stores everywhere, or write Sorbol Company, Mechanicsburg, O.—Adv.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

The Whisper That Comes in the Night

The Glorious Knowledge Woman Gain When a Wonderful Thought Steals Over Them.

Happiness in its most thrilling degree comes to woman with the thought of possessing a baby.

Every woman in the joy of coming motherhood should prepare her system for the unusual strain. Three generations have found the tried and reliable preparation, Mother's Friend, of the greatest help at such a time. By its daily use throughout the period, the skin of the abdomen is made soft and elastic, expanding muscles relax easily when baby arrives, and pain at the crisis is in this way avoided.

The inflammation of breast glands is soothed.

Obtain from your druggist, by all means, this great preparation which science has offered for so many years to expectant mothers.

Write the Bradfield Regulator Company, Dept. D, Lamar Building, Atlanta, Georgia, for their helpful and interesting Motherhood Book, and begin the use of Mother's Friend. It is for external use, is absolutely safe and wonderfully effective.

And remember, there is nothing to take the place of MOTHER'S FRIEND.

Woman Thinks She Can't Talk Enough

"I had gall stones for 14 years and suffered severely from gas, colic and indigestion. Doctors wanted me to go to the hospital, but I took Mayr's Wonderful Remedy instead, and am now feeling fine and better than I ever did. I can't talk enough about this remedy." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

COCOANUT OIL FINE FOR WASHING HAIR

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

DRINK A GLASS OF REAL HOT WATER BEFORE BREAKFAST.

Says we will both look and feel clean, sweet and fresh and avoid illness.

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

CHAIRMAN OF FEDERAL TRADE COMMISSION TAKES SLAP AT AMERICAN PACKING INDUSTRY

CINCINNATI, O., June 6.—With a note of optimism for business, an appeal for the league of nations and an attack on the "packer trust," Chairman William B. Colver of the federal trade commission, addressed the national wholesale grocers association here today.

To sign a treaty and merely declare war over, he said, would mean 20 wars in Europe in the next five years, any one of which might be the torch touching off another world war.

A treaty of peace unsupported by a covenant of nations will be as powerless to really bring about peace as the armistice was powerless to substitute the orderly processes of peace for the destructive processes of war.

Colver has just returned from Europe and declared the "world cannot do without us."

"As we gave the idea of democracy to the world, so in the hour of universal birth of republics, the United States must extend a helping hand to every struggling people."

Continued commercial and industrial paralysis in Europe, he said, would bring revolution and "revolution there will spread to America as [illegible] as the dawn comes across the Atlantic."

[illegible] of the [illegible] the federal trade commission attempted to slow business in general, but attacked the packers.

"Shall we, who have just poured out our blood and treasure in France [illegible] the 'ruthless efficiency' of the [illegible] silent while the same kultur comes to its perfect flower in this country?" he asked, demanding legislation to restrict the packing industry to its own field and not allowing it to control virtually all foodstuffs.

Colver made an appeal for the "Americanization of our population." An enormous number of the country's people have not taken American citizenship, he said.

"I ask you," he declared, "to consider whether it would not be wise at this time to put the bars up absolutely against immigration of all kinds from any country for ten or fifteen years, during which time it should be possible for the present population to be digested and assimilated into an American citizenship."

FORD'S COUNSEL FINISHES CASE

MOUNT CLEMENS, MICH., June 6.—At the opening of court today it appeared certain that the Ford side in the libel suit against the Chicago Tribune would finish their case today. They were nearing the close of their case yesterday afternoon when the plaintiff sought to introduce a Tribune article headed "An Idiotic War" as one of their exhibits, declaring it was of pro-German character.

The defense objected to it, saying that at the time the article appeared—April 9, 1916—they were running a forum page containing articles by special writers on many different subjects.

Attorney Kirkland, for the defense, said it was unfair for the plaintiff to choose this one and said he could read 3,000 articles from the Tribune files that were pro-ally.

Arguments on the deposition continued today.

Itching, Scratching, Skin Diseases That Burn Like Flames of Fire

Here Is a Sensible Treatment.

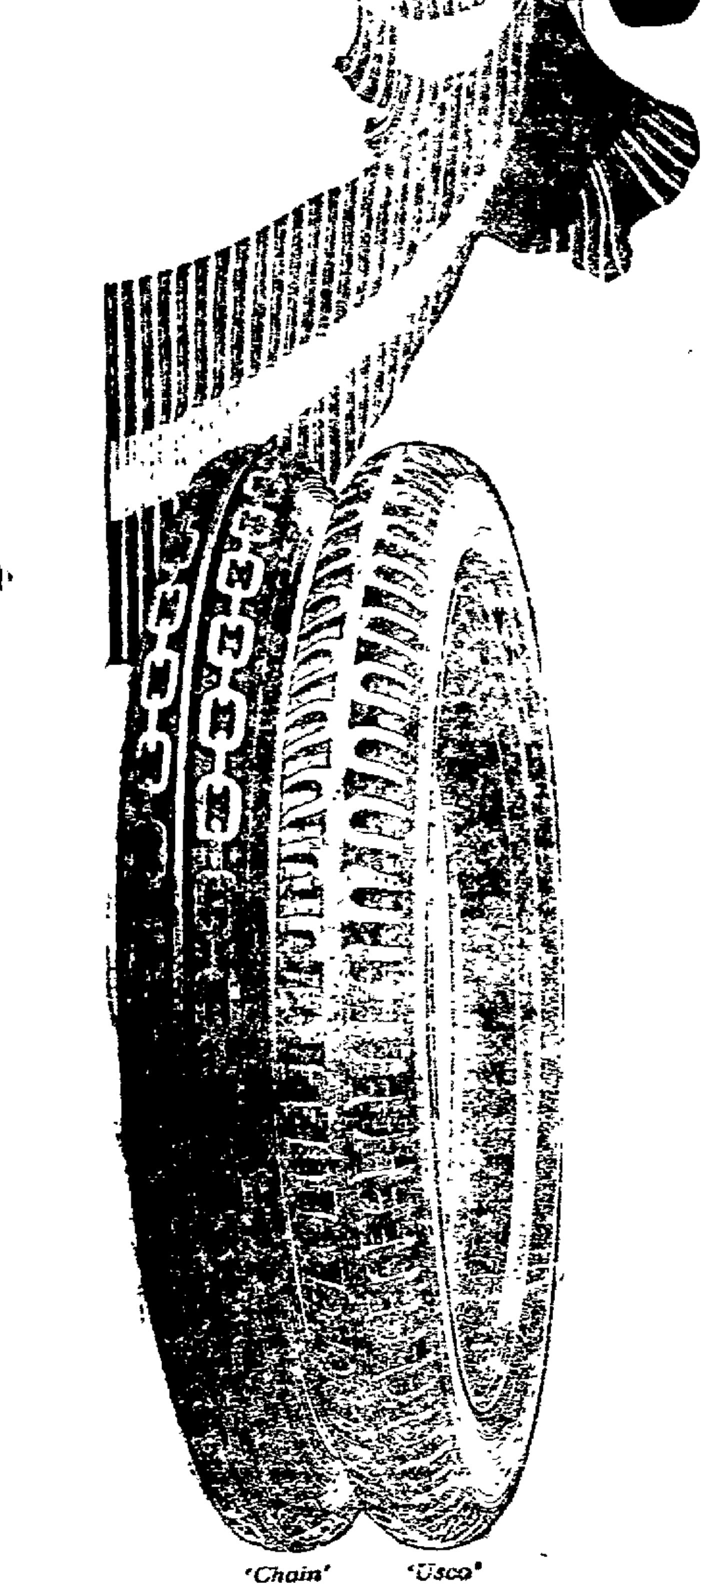

For real, downright, harrassing, discomfort, very few disorders can approach so-called skin diseases, such as Eczema, Tetter, Boils, eruptions, scaly irritations and similar skin troubles, notwithstanding the lavish use of salves, lotions, washes, and other treatment applied externally to the irritated parts.

No one ever heard of a person being afflicted with any form of skin diseases whose blood was in good condition. Therefore, it is but logical to conclude that the proper method of treatment for pimples, blotches, sores, boils, rough, red and scaly skin, is to purify the blood and remove the tiny germs of pollution that break through and manifest their presence on the surface of the skin.

People in all parts of the country have written us how they were completely rid of every trace of these disorders by the use of S. S. S. the matchless, purely vegetable, blood purifier. S. S. S. goes direct to the center of the blood supply, and purifies and cleanses it of every vestige of foreign matter, giving a clear and ruddy complexion that indicates perfect health. SOVIET RUSSIA IS IN RACE BETWEEN MONEY MANUFACTURE AND INCREASE IN PRICES

(The fourth of the series of dispatches from Frank J. Taylor, [illegible] ing conditions in Russia based on personal observation [illegible])

PARIS, June 5. The economic planks in the Bolshevik platform appear to be the weakest part of the Soviet structure.

Rebuilding Russia is almost a superhuman problem. [illegible] are beginning to wonder [illegible] done thru Bolshevism. [illegible] beginning to realize that Bolshevism stands or falls with the results of their economic experiments, since communism has made everyone dependent upon the state for a livelihood. The Bolsheviki have shouldered the enormous task of feeding, clothing and financing everyone in Russia. So far they have been able to meet the [illegible] with the statement: "We [illegible] had no chance to develop the [illegible] phases of communism [illegible] to political and military opposition.

Soviet Russia is in the throes of a race between the money run off the printing presses and the increase of prices and wages. By confiscating all the houregoisie printing presses the Bolsheviki have kept pace and they have increased wages almost monthly to meet the rising cost of living. Every one has begun to wonder if this financial marathon can be stopped short of an actual collapse. The peasants have become skeptical and refuse to sell food for roubles, which the Bolsheviki print in huge pages like postage stamps. A number of times I have seen a commisary reach into a desk drawer, pull out a square yard of roubles and hand it to someone, who would tear off a string of a dozen or more without bothering to separate the individual twenty rouble pieces. Strings like stamps are carried by everyone. Stimulating factory production and replacing individual initiative is a problem that bothers the Bolsheviki. It is not difficult to take over a number of factories and run them by means of Soviets, but establishing new industries is another matter. A new economic mission has been appointed in an effort to stimulate industry and replace capitalistic initiative. So far its accomplishments have been confined to planning.

The greatest test of Bolshevism will come when their army is demobilized, necessitating their coping with an enormous unemployed problem. They are offering concessions to induce capitalists, foreign preferred, to build up the railways and new industries, which the state would take over at the end of a number of years. But they want the capitalists to grant the same labor conditions as the nationalized industries where the working day has been reduced to six or eight hours and wages are decided by the unions. The capitalists declare it is impossible to meet these conditions, since the state makes up the deficits under which the industries are operating. Getting food to the industrial centers is a different problem owing to the shortage of locomotives, which is due to military demands.

There is plenty of food in Russia. Villages are overstocked while Petrograd and Moscow are starving on rations—the money buys anything at exorbitant prices, from the street markets which the Bolsheviki no longer seek to control.

The government sells a limited amount of food to these co-operative markets recognizing three official categories:

Full rations for manual laborers. Slight rations for office workers, and hunger rations for the houregoisie.

Everyone is obliged to patronize these open markets. When I was in Petrograd recently these prices were quoted to me:

White flour, 3,000 roubles a pound. Butter, 200 roubles a pound. Sugar, 250 roubles a pound. Bread, 80 roubles a pound; potatoes, 25 roubles a pound.

The average workman's wages are 30 roubles a day. With four fifths of the factories idle, railroads in despair, buildings run down and nobody taking a personal interest in anything, rebuilding Russia is almost a hopeless problem, even for the idealistic Bolsheviki.

"NO BOOZE, NO PRISONERS," IS NEW RULE HERE

ZANESVILLE, June 6—For the first time in six months the city prison is free from prisoners. All cell doors in the bastile were wide open Thursday, and all the "turnkey officer" had to do was to swat flies or sit around and "snooze." John Spinke, the last prisoner who released until Friday when he must appear in municipal court to answer a charge of assault and battery upon his wife. The empty cells brot a comment from Sergeant Fred Arter who said, "No booze, no prisoners."

IMMEDIATE RATIFICATION IS BATTLE CRY OF SUFFS

NEW YORK, June 6. "Special sessions for immediate ratification," was the new suffrage battle cry sounded today by Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage Association.

As the majority of states do not have regular legislature sessions between now and a year from November, special sessions will be necessary to ratify the amendment in time for all women citizens to be able to vote for president in 1920. Mrs. Catt predicted that the 27,000,000 women of voting age will get what they are after.

In the states where special sessions are necessary the governors will have been asked before the sun sets this evening to call the sessions, Mrs. Catt said. Procedure for action immediately following congressional adoption of the amendment was planned to the minutest detail months ago. The task of asking governors to call special sessions was delegated the state suffrage organizations. In Indiana yesterday within an hour after Miss Alice Bainbridge, president of the Indiana woman suffrage league received word the senate had adopted the resolution to submit the amendment to the states she was on her way for a talk with the governor.

"Only by special sessions of the legislature can be righted the wrong done American women when the 65th congress failed to pass the amendment," said Mrs. Catt. "Its passage yesterday means the Republican party has dealt a body blow to its reactionary element. For the Democrats it means a significant reassertion of the leadership of President Wilson.

"That the state legislatures will ratify the amendment there is not the slightest doubt. Twenty nine states now have full suffrage, presidential suffrage or primary suffrage. These will make twenty nine of the thirty six necessary to ratify.

"Ten other states now permit women to vote on school and tax matters. Some of these have home rule on municipal suffrage. Of these states we are sure of the following: Kentucky, Ohio, New Jersey, Delaware, New Mexico, New Hampshire and West Virginia. That makes thirty six.

"We also have these states in the probable column: Pennsylvania, [illegible] ate Jy [illegible] Mass., Conn., and Florida.

"The states we are not so sure of are Miss., Louisiana, Alabama, Georgia, South and North Carolina, Virginia and Maryland."

NEW PHILADELPHIA, O., June 6. The six sons of Mrs. Virginia S. Wilkin, aged 67, widow of Judge J. Wilkin, member of state bar examination committee, are sons.

VANCOUVER CAR MEN ON STRIKE

VANCOUVER, B. C., June 6—Street car men joined in the general strike here today and thousands walked to work or took a day off. The decision came after a meeting lasting several hours.

The Vancouver Sun, morning newspaper, issued under a labor censor today and carried not a line regarding the walkout here.

The Sun is considering suspension during the period of the strike.

Interurban street car service is still effective.

The general strike here is in sympathy with the Winnipeg strike. There is no grievance between local employes and employers.

Pastime Tonight

Hold On, Young Man!

GOODNESS gracious, but that young man certainly looks capable of holding his own, doesn't he? We thought he was posing for one of those ads which tell how "It Fits Well Around the Neck," but it appears he was just released from service and he's rushing back to his girl. So let's forgive him. If you look again, you will probably recognize Ernest Truex and Louise Huff, who are the co-stars in the new John Emerson-Anita Loos Paramount picture, "Oh, You Women."

DR. NORTH TO ADDRESS THE COMMUNITY COUNCIL TONIGHT

Dr. C. C. North, Columbus, will discuss plans for community development at the meeting of the Coshocton community council at the public library Friday night at 7:30 o'clock.

Arrangements were made for Dr. North to come to Coshocton at a meeting of the state committee on health and recreation in Columbus, Thursday. Mrs. C. J. Wellman, who has been in the city for four weeks making a survey of conditions affecting community recreation reported on some of the facts developed by the survey committee.

Dr. North is a member of the faculty at Ohio State university and is widely known for his work in promoting the handling of city problems from a community standpoint. He conducted organization work of this nature in Indiana that attracted countrywide attention.

While much of the information brot out as a result of the local survey has been placed before the community council Dr. North will show what can be done in a practical way to make use of it and tie it up to an immediate program.

According to Dr. North's statements he believes that the most effective way to "put across" a recreation program in Coshocton is for all forces to unite in backing the project. It is planned to have Dr. North answer problems in Coshocton which he has met under similar conditions in other cities in which he has been interested.

Saturday Is Tag Day For The Posey Shoppe; Cast Is Made Public

Saturday is tag day.

But the tags don't cost anything.

It's an advertising scheme and a good one, for "The Posey Shoppe."

"The Posey Shoppe" is the musical production which is to be put on at the Sixth Street theater June 12 and 13 under the direction of the Misses Moorehead, who achieved such notable success in the case of the "Spring Bonnet" here last year.

A per centage of the receipts of "The Posey Shoppe" will be turned over to the Salvation Army here. The rest, after expenses are paid will go to the Belvedere club.

The tags will be secured to lapels and shirtwaists by deft fingers that will work even more rapidly than the glib tongue of the fair maid who holds up the victim, and unless the decorated one is clever at dodging he'll carry away a ticket as well as a tag.

MEMORIAL TABLET ANDREWS RAIDERS IN CAPITOL ROTUNDA

COLUMBUS, O., June 6.—Governor Cox today appointed the following members of a commission to erect a tablet in the rotunda of the state house in honor of the Andrews Raiders of the Civil war.

Colonel James R. Kilbourne, Columbus, Judge J. M. McGinnis, Caldwell, and Captain M. C. Peters, Piketon. Captain Peters' brother-in-law, was one of the raiders and was caught with them and hanged. Peters himself, belonged to the regiment composed chiefly of Noble and Pike county men from which the raiders volunteered for the hazardous undertaking.

The story of the raid made back of the enemy lines when the army of the Cumberland was operating in Tennessee is one of the most thrilling of the Civil war. All the raiders were captured. A few escaped and the remainder were hanged.

Provision for the erection of the memorial was made in a bill by Senator Archer of Noble-co, recently passed by the legislature.

PARK OPENS WITH LARGE ATTENDANCE

A large crowd attended the opening of Fairlawn park Thursday evening. The dance hall was thronged with young people from 8:30 to 11:30. Excellent music was furnished by Athey's Jazz zand. The hall was appropriately decorated. The orchestra platform is in the center of the floor this year instead of along the side of the hall.

Swings and other paraphernalia have been installed in the children's playground and the park presents a very attractive appearance. Manager Frank Fahner expects to have the dance hall open each day during the season in order that picnic parties may be afforded shelter in case of rain.

SUIT BROT TO RE-OPEN PLANT MAKING AUTOS

TOLEDO, June 6. — Aid of the U. S. district court has been sought in an effort to bring about the re-opening of the Willys-Overland Automobile plant closed since Tuesday's riot.

The Dail-Overland Company, of North Carolina, filed suit asking the court to order opening of the plant and to enjoin all of the defendants it names.

The suit names as defendants the Willys-Overland Company and all of the labor leaders and unions involved in the strike troubles which caused the plant to shut down.

The Dail-Overland Company alleges that it has a contract with the Overland Company extending from January to October under which the latter was to deliver 2400 cars in monthly allotments. It says it has received only a small proportion of its May allotment.

CITIES RELIEF BILL IS SLATED TO GO OVER COX

COLUMBUS, June 6.—It was assured today that one of the first acts of the legislature when it returns June 16 will be to pass over the veto of Governor Cox the emergency cities relief bill, which provides that cities may raise the limits of the Smith one per cent law to pay up deficits.

Cox late yesterday vetoed this bill. He had vetoed similar bills twice before. The Bishop bill empowering counties to erect correctional homes for persons under 18 years of age, was also vetoed because it is a fracture of the Smith law.

NEW YORK—Miss Thelma Seeligman, charged with parking her automobile on the street ,explained she was having her hair marcelled. Discharged.

Springfield, Mass.
